

Welcome to the Magee Course Planning Guide!

Course descriptions in this booklet are intended as a guide to assist students and parents in selecting courses for programs. Some courses must be taken to <u>meet the requirements of the Ministry of Education</u> while others are chosen to meet individual interests and goals. Counsellors will assist students in the selection of their courses, and their valued advice and expertise will be the principles that guide Magee students to success.

While every effort is made to give students their first choice of course selection, due to circumstances beyond the school's control, is not always possible. Students should be prepared with alternative choices.

Please Note: Students and their guardians are responsible to ensure successful completion of all courses required for graduation and post-secondary admissions.

COURSE REQUIREMENTS

Grade 8

Students in Grade 8 take eight required courses.

- English Language Arts 8
- Social Studies 8
- Mathematics 8
- Science 8
- Physical and Health Education 8
- French 8
- ADST 8 (a rotation of: Home Economics 8, Technical Studies 8 & Business Education 8)
- Fine Arts 8 One of: Band 8, Strings 8, Art 8 or Drama 8.
- Career Education 8 (off timetable)

Students in Grade 9 take eight courses. Required courses are:

- English Language Arts 9
- Social Studies 9
- Mathematics 9
- Science 9
- Physical and Health Education 9
- Career Education 9 (off timetable)

Grade 9s also need to take 3 elective courses which may include a language course

Electives are chosen by students in consultation with parents and counsellors based on interest or need as pre-requisites for senior courses.

THE GRADUATION PROGRAM GRADES 10-12

The B.C. Certificate of Graduation or "Dogwood Diploma" is awarded to students who successfully complete the provincial graduation requirements.

Students require a minimum of 80 credits to graduate, and of these 80 credits:

- At least 16 credits must be at the Grade 12 level, including a required Language Arts 12
- At least 28 credits must be elective course credits

52 credits are required from the following:

•	A Language Arts 10	(4 credits)	
•	A Language Arts 11	(4 credits)	
•	A Language Arts 12	(4 credits)	
•	A Social Studies 10	(4 credits)	
•	A Studies 11 or 12	(4 credits)	
•	A Mathematics 10	(4 credits)	
•	A Mathematics 11 or 12	(4 credits)	
•	A Science 10	(4 credits)	
•	A Science 11 or 12	(4 credits)	
•	Physical and Health Education 10	(4 credits)	
•	• An Arts Education 10, 11, or 12 and/or an Applied Design,		
	Skills, and Technologies 10, 11, or 12	(4 credits)	
•	Career Life Education 10	(4 credits)	
•	Career-Life Connections 12	(4 credits)	

There are three new graduation requirements to take note of:

- The new Grade 10 Graduation Numeracy Assessment (was introduced in 2018)
- The new Grade 10 Graduation Literacy Assessment (was introduced in 2019/20)
- The New Grade 12 Graduation Literacy Assessment (will be introduced in 2021/22)

ADVANCED PLACEMENT

The Advanced Placement Program is a cooperative educational endeavor between secondary schools, colleges and universities administered by the College Board. students willing and able to apply themselves to college-level studies, the AP Program is enrich their designed to secondary experience in a variety of subject areas. It provides the means for colleges to grant credit, advanced placement, or both, to students who have applied themselves successfully in AP subject areas. Information on credit and/or placement of students at the college and university level after successful completion of AP examinations is available through Magee's AP Coordinator, the information offices of individual universities, or through the College Board.

Currently, AP courses and/or support are offered in:

- Art
- Calculus
- Computer Science
- English
- European History
- Psychology

Further information about these offerings and the AP examinations can be obtained from the AP coordinator, or through the teachers of the individual courses. AP examinations are offered in May of each school year. There is a fee for the writing of the AP examination. This payment is due in September 2021 paid through school fees. Generally speaking, students write the AP exams associated with AP courses. Students have nothing to lose (except the exam fee!) and everything to gain by writing to potentially gain a first-year university credit—

a \$160 exam could save an entire semester's course tuition!

APPLIED DESIGN, SKILLS AND TECHNOLOGIES

The Applied Design, Skills and Technologies Department encompasses Business Education, Home Economics, Information and Communications Technology, Technology Education, Career Education and Work Experience.

In Grade 8, students will be introduced to three different areas of ADST through a three-way rotation of: Entrepreneurship and Marketing, Foods, and Wood and Metal Technology. All Grade 8 students will also be enrolled in Career Education 8 as an off-timetable course.

ENTREPRENEURSHIP AND MARKETING (MADEM08)

This course introduces students to a wide variety of components in the business world, including communication, finance, entrepreneurship, marketing and economics.

FOOD (MADT-08)

This course introduces some of the skills required to master the practical aspects of everyday life. The focus is on nutrition and food preparation concepts. Students will learn all the basics of preparing simple recipes.

WOOD AND METAL TECHNOLOGY (MADW-08)

Using an integrated approach, students problem solve and learn skills designed to equip them for an increasingly technological world. The course provides an opportunity for students to design and make projects in Technical Drawing, Woodwork, and Art Metal. Students also learn some computer applications. The course emphasizes and encourages individual effort, accountability and responsibility.

BUSINESS EDUCATION

ENTREPRENEURSHIP AND MARKETING 9/10 (formerly BUSINESS EDUCATION 9/10) (MADEM09/MADEM10)

Note: this course may only be taken once, either in Grade 9 or Grade 10.

This course will give students the opportunity to understand the basics of business. Students will develop and apply appropriate business skills, including interpersonal, teamwork, communication, and research skills to solve business problems.

Topics: include, but are not limited to the following: Business Communication, Entrepreneurship, Economics, Finance and Marketing.

Entrepreneurship

DIGITAL COMMUNICATIONS AND COMPUTER APPLICATIONS 9-12 (formerly Computer Fundamentals 9/10/11) (Gr. 9s: MADIT09, Gr.10-12: MBCA-12)

This is an introductory course for Grades 9-12 students, and may only be taken once, either in Grade 9, 10, 11 or 12.

This is a no-homework, hands-on course where students complete all work in class. Good solid computer skills are essential in today's technology-oriented society. Completion of this course will provide you with a solid foundation for future use. In this course you will learn to:

- Type without looking at the keyboard, using proper keyboarding techniques, and do so more quickly than ever with a minimum number of mistakes
- Create well organized personal letters, reports and other business documents
- Effectively use presentation and spreadsheet software
- Improve time-management and organizational skills
- Develop work habits that will enhance future educational/work experience

MARKETING AND PROMOTION 11 (formerly MARKETING 11) (MMAP-11)

Recommended: Grade 11 student or Entrepreneurship and Marketing 9/10

What makes a successful product? How do we decide what products to buy? How do we use marketing to increase Sales and Profits? Explore Marketing as we learn about Market Research, Product Development, Promotions and Advertising and Entrepreneurship so that businesses can determine and meet the customers' needs, how businesses use marketing to present their products and services, and how marketing helps individuals and firms become and remain successful.

This course will involve building presentation skills and teamwork. Case studies of businesses will be used to help develop students' knowledge and skills.

E-COMMERCE 12 (formerly MARKETING 12 MECOM12)

Recommended: Marketing and Promotion 11

This course is about learning by doing (and having fun) rather than learning from a textbook. 3 main topics include:

- Culture & International Marketing students will participate in games / activities to analyze how culture influences our decisions and behavior before adapting an advertising campaign to a new country.
- Entrepreneurship & Sales students will manage and run the school store for the year, choosing products, creating promotions, supervising day-to-day operations and completing financial reporting.
- Modern Marketing marketing today requires better ways to get consumers' attention and we will analyze social, experiential and viral marketing. Each project focuses on creating your own advertisements through Photoshop and video editing.

ACCOUNTING 11 (MAC--11)

Open to students in grades 10 – 12

Are you interested in MONEY? Do you want to learn how businesses manage their finances? Do you want to find out how much you are WORTH?

If you answer "Yes" to these questions -

Accounting 11 is a course for you! Students need financial skills to survive in today's competitive and complex world. This course provides a basic understanding of the accounting steps taken by most service businesses in keeping track of their money: How much is being earned? How much is being spent? Students learn to prepare Balance Sheets, Income Statements and other Financial Statements needed to solve financial problems and run the financial affairs of a business. Students also explore career opportunities in the field of Accounting.

This is an essential course for those students who wish to pursue a Commerce degree or an entrepreneurial career. Students can also gain practical work experience in a real "Accounting" setting via the Work Experience Program.

ACCOUNTING 12 (MACC-12)

Recommended: Accounting 11

You enjoyed Accounting 11 and you want to continue your studies in Accounting? Take this course and move into Automated Accounting and much more. Students will learn Accounting procedures for Merchandising Businesses and the use of Specialized Journals. Each student will learn how to use automated software accounting and complete accounting work for 3 to 4 different companies. Team projects and presentations will be a component of each term with a special "House Hunters" unit focusing on housing, mortgages, and the real costs associated with living in the Lower Mainland.

Students will also have the opportunity to experience a real "Accounting" setting via the Work Experience Program. Students will proceed to post-secondary studies with a good foundation in accounting theory.

ECONOMICS 12 (MEC--12)

Open to Grade 12

Economics 12 introduces you to many dynamic issues that affect the way that all of us live. Who says money makes the world go round? Come find out for yourself! Analyze the effects of individual and government decisions on our local society, the Canadian nation, and the global community. Understand how economic

theory can help us deal with the environmental concerns of this generation. Economics is for everyone!

TOURISM 11 (MTRM-11), TOURISM 12 (MTRM-12)

Open to students in grades 10 – 12

The tourism sector is one of the fastest growing and ever-changing industry in the world. British Columbia's tourism industry is projected to create 101,000 new job openings by 2020 in a wide range of areas. Do you enjoy working with other people and are you considering a future career in a client-based profession? If so, these are the courses for you! Concepts covered in these courses will be of exceptional value to students who strive to work in the Tourism and Hospitality industry. Students learn to strengthen and develop effective communication strategies. Students will gain an understanding of global tourism issues, principles of tourism management and

operations, and economic importance of tourism and trades.

ENTREPRENEURSHIP 12 (formerly Marketing Management 12) (MENT-12)

Recommended: Marketing 11 or Marketing 12 Pre-interview with teacher required.

You must be responsible, mature and able to take an assignment from start to finish with little or no supervision. Independence, problem and decision-making -solving, skills encouraged promoted and as are communication and interpersonal skills. You will manage the operation of the Lion's Den, direction and guidance from the marketing teacher. You will experience the key functional aspects of managing a small retail business including developing, refining, and implementing store policy and operational procedures, scheduling, procuring, controlling and managing inventory. Controlling, managing and supervising staff including developing staff incentive programs, working with Marketing and Promotion 11 and E-Commerce 12 students to develop and implement marketing initiatives, and accounting and producing financial statements. Through these key functions, you will also develop skills in business software. This course will be offered through any block on the timetable, as you will be working independently, guided by the marketing teacher.

CAREER EDUCATION

CAREER EDUCATION 8 (MCE--08)

In this introductory course students will develop the skills they need to be self-directed individuals who set goals, make thoughtful decisions, and take responsibility for pursuing their goals. We begin with personal development; we develop career exploration skills, and we end with a career research project.

CAREER EDUCATION 9 (MCE--09)

In Career Education 9 students will continue with the personal development, connections to community, goal setting and career exploration begun in Career Education 8.

CAREER LIFE EDUCATION 10 (MCLE--10) This is a required course for graduation.

The aim of the course is to enable students to develop the skills they need to set better goals, make informed decisions and take responsibility for their actions throughout life. In Career Life Education 10, students learn how:

- To find a balance between school life and personal life which is essential to good physical and mental health
- To develop a network of family, friends, and community members who can support and broaden career awareness and options
- To prepare for lifelong learning in order to adapt to changing career opportunities
- To consider internal and external factors when career planning
- The global economy affects our personal, social, and economic lives and prospects
- To continually plan, evaluate, and adapt for successful career and education paths

Career Life Education 10 provides relevant and experiential learning opportunities which help students relate learning in school to the demands of the working world. Students begin developing their Graduation Transition Plan/ Capstone Project in this course. Career Life Education 10 can be further enriched by parental support. It is hoped that each student will discuss course content with his/her parents/guardians.

CAREER LIFE CONNECTIONS 12 AND CAPSTONE PROJECT (MCLC-12) This course is required for graduation.

CLC is intended to support and guide students continuously in purposeful and ongoing career-life development. In this course students learn how to set personally meaningful goals, recognize and cultivate relevant opportunities and supportive relationships, and continually re-evaluate and revise their plans that they began in CLE 10.

Emphasis in CLC is put on becoming self-aware, life-long learners, who understand that one's interests may develop and change over time. Being aware of one's own self-identity will support their career-life choices. What will each student's personal journey look like? Through CLC we will continue to support and guide students towards a better understanding of who they want to be in the world.

CAPSTONE PROJECT

The completion of this project is required for graduation.

The Capstone Project is a learning opportunity for students to reflect and share in personally meaningful ways, their knowledge, competencies, and passion(s). It will integrate personal interests and strengths with preferred future possibilities. It is a representation of the student's learning journey and provides an opportunity to reflect and synthesize as well as showcase and celebrate.

INFORMATION TECHNOLOGY

INFORMATION TECHNOLOGY/COMPUTER STUDIES 9/10 (MADGE09/MCSTU10)

Open to Grade 9, 10, 11, and 12 students. This course may only be taken once.

What happens when you type in a website's address into your browser? How does it know what to show you? How do computers communicate all that information across the globe? How can we get computers to do things for us? Answers to all these and more in Computer Studies!

The first part of the course is dedicated to learning how digital information is stored, transmitted, and read in essence, how the functions. internet Students will then get introduction to programming using Scratch – a visual programming language great for building small, interactive

programs. Students will start with building classics like Pong and

working up to designing their own full featured game. (Students with prior Scratch experience will be given the opportunity to expand their programing skillset with Applnventor, GameMaker or other platforms).

The final section of the course allows for students to explore other areas of interest. Possible topics include hardware, advanced application use (e.g. Excel), and media applications (e.g. Flash and Photoshop).

This course aims to teach students the basics of computer information and communication as well give them an introduction to advanced topics.

COMPUTER PROGRAMMING 11 (MCMPR11)

Recommended: Computer Studies 10 or a strong foundation in Math 10.

Do you like problem solving? Enjoy finding and solutions? If creating unique you interested in learning how to tell computers to do stuff for you, this is the class!

In this class you will learn the foundations of programming in Java, from variables, through loops, to classes and objects. Armed with the

> basics you will go on to create interactive, graphical programs starting with replicating will have plenty opportunities individualize projects. reality... on them computer.

> classics like Asteroids and Pacman and working your way up. At each step, you of to your This class is ultimately about taking your ideas and making the

This class serves as an excellent start point for anyone interested in Computer Science as part of their future education or career. BUT, it is intended for any student with any level of experience. People with no plans to pursue Computer Science will still benefit greatly from improved problem solving and computational thinking skills and the programming experience will still be an asset in any other field.

AP COMPUTER SCIENCE A (ACSC-2A)

Recommended: Computer Programming 11 and Pre-Calculus 11.

This course is for those who enjoyed Programming 11 and anyone planning to pursue a Computer Science degree or any degree requiring first year computer Foundation programming science. are similar to Computer Programming 11 but there is a strong focus on design and further expansion several advanced on topics. Students will have the opportunity to write the College Board AP exam which requires a significant amount of time and work. In class lectures and labs will provide a good foundation in preparation for the exam. Successful completion of the exam may provide students with an advanced credit at a North American college or university.

GRAPHIC GESIGN

DIGITAL MEDIA DESIGN 12 (MMEDD12)

Open to students in Grades 10, 11, or 12

This course used Adobe Creative Cloud. If you love to create, enjoy computers, and want to learn useful and desirable skills, this is the class

for you! Whether you have the idea for the next best advertising campaign or you simply want to be the greatest meme lord, this class will teach you all the skills necessary to express yourself through digital mediums. Basic computer skills, creativity and a sense of humor are an asset.

This class will cover the following:

- Photo editing using Adobe Photoshop –
 Learn how to combine, edit, manipulate, and compose digital images.
- Animation using Adobe Animate Learn how to use digital tools to your advantage in creating complex, yet low work-load animations.
- Video Editing using Premiere Pro & After Effects – Learn how to stitch together videos and edit them with transitions, effects, text, overlays, etc...

GRAPHIC PRODUCTION 11 (MGRPR11)

Recommended or Co-Requisite: Digital Media 11, Computer Studies 10 and Open to Grades 11 & 12.

If you like commercial design (making art for advertising and packaging), drawing, 3D printing, graphical layout, lettering, photo enhancing, sticker making, button making, mug design, t-shirt printing and beyond, this course is for you. Students will study the elements and principles of design and incorporate these into a series of products using a variety of techniques. Projects are designed to give students hands-on experience to develop specific, worthwhile skills.

HOME ECONOMICS

CULINARY ARTS 10 (MCUL-10; was Foods & Nutrition 10)

Open to Grade 9-10 students and this course may only be taken once, either in Grade 9 or Grade 10.

Students will learn about basic meal preparation and key nutrition concepts for healthy living. They will learn about measurement and safety while making things

like pizza, chili, pasta, soups, baked goods and whole meals. Our world foods unit focuses the on culinary and cultural practices of many countries with dishes like enchiladas, sushi, chicken souvlaki, crepes and lasagna. Students are encouraged to take

CULINARY ARTS 11 (MCUL-11; was Foods+ Nutrition 11B)

Open to Grade 10-12 students.

This course teaches students more advanced culinary skills and meal preparation. Current nutrition concepts, consumer awareness and recipe analysis are integrated into course work. Students will learn a variety of new cooking techniques while making dishes such as Lava cakes, Calzones, Autumn Soup, Cheese Bread, Thai Chicken Curry and Orange Chiffon Cake. An international unit covers knowledge of other cultures and their culinary practices. Students will also have the opportunity

to receive their Food Safe Level 1 certification.

CULINARY ARTS 12(MCUL-12; was Foods + Nutrition 12A)

Open to Grade 10-12 students.

During this course students will acquire more advanced food preparation skills while making gourmet recipes. Concepts on recipe creation, food and the environment and food marketing are also covered. Students will learn how to prepare full meals that are not only nutritious but also visually appealing. Recipes in our

ethnic unit include things like Citrus Almond Biscotti, Pad Thai, Chicken Kiev, Stuffed Ravioli, Apple Streudel and Vegetable Pakoras. Students will also have the chance to receive their Food Safe Level 1 certification.

TEXTILES 9/10: FASHION AND DESIGN (MADT-09, MTXT-10)

Open to Grade 9-10 students.

Students learn the basic elements principles of design and how they can be applied to clothing design and construction. They will have design opportunities to develop hand and machine construction techniques to produce and repair textile items. The origins, characteristics and care of natural and manufactured textiles will be explored through a fabric study. Strategies will be introduced to alter patterns and upcycling. A minimum of four projects will be completed. Students will have a choice in project work and a minimum of three projects will be completed.

TEXTILES 11: FASHION AND DESIGN (MTXT-11)

Recommended: Textiles 9/10. Open to Grade 11-12 students.

The study of the elements and principles of design will be continued in greater depth. This enables students to develop strategies to choose projects wisely with economical and ethical considerations. A study of specialty fabrics and properties and the exploration and use of related sewing techniques will help students to develop confidence in their use. Students will have a choice in project work and a minimum of three projects will be completed.

TEXTILES 12 FASHION AND DESIGN (MTXT-12)

Recommended: Textiles 11. Open to Grade 11-12 students.

Students will examine complex textiles designs and determine the methods for designing patterns. The influence of historical uses of textile items will be studied and forecasting practices will be examined. Students will have a choice in project work. A minimum of three projects will be completed.

PYSCHOLOGY 11 (YPSYC1A)

Grades 11 and 12

The focus of this course is on human behaviour, personality theories, mental health issues, brain development, adolescence, human sexuality, interpersonal relationships and developmental psychology. This course will be of interest to students planning future studies in the areas of psychology, law, education, medicine and business. Students will gain a better understanding of how they can apply the study of psychology to help them with their personal and social interactions and well-being.

AP PYSCHOLOGY 12 (APSY-12)

Advanced placement (AP) Psychology is a fast paced, content rich-course. It is intended for students who are interested in taking the AP Psych exam for first year University credit or who have a strong interest in psychology and want an AP Psych course credit. Students should expect to spend additional time outside of the classroom on reading, course work and exam prep.

The AP course is not one in which you play a passive role, simply absorbing information presented by the teacher. You will be asked to take an active part in discussions, games, pair and group activities, experiments and study sessions. In AP psychology there are a considerable amount of terms and concepts you must master so there will be a focus on not just memorizing information but applying it to real life situations to help you retain the information.

Course topics will include history of psych, research methods, biological basis of behavior, the brain, sensation and perception, states of consciousness, learning and cognition, memory, personality, abnormal behavior and treatment, developmental psych and social psych. Previous psych courses are an asset but not required.

TECHNOLOGY EDUCATION

DESIGN AND FABRICATION 9 (MADW-09)

No prerequisite

Topics Covered: Design, Woodwork, Metalwork, Silversmithing

No prerequisite

Topics Covered: Design, Woodwork, Metalwork, Silversmithing

The Magee Design and Fabrication (MDF) program offers students the opportunity to design and fabricate objects using a variety of materials, methods, technologies and tools. Using creative and critical thinking, students will work individually and collaboratively to problem solve by exploring materials, using tools and equipment, designing and building, developing processes and communicating the merits of their work.

DESIGN AND FABRICATION 11/12 (MWWK-11), (MWWK-12)

No prerequisite

Topics Covered: Design, Woodwork, Metalwork, Silversmithing

The Magee Design and Fabrication (MDF) program offers students the opportunity to

design and fabricate objects using a variety of materials, methods, technologies and tools. Using creative and critical thinking, students will work individually and collaboratively to problem solve by exploring materials, using tools and equipment, designing and building, developing processes and communicating the merits of their work.

ENGINEERING 11 (MENR-11)

Topics Covered: Design for the Life Cycle, Product Development and Manufacturing Process, Innovative Engineering Projects

Engineering 11 is a collaborative, project based course incorporating technical skill knowledge of design and fabrication with the application one's scientific theory and practice to design and construct novel solutions to challenges that exist in our everyday world. Learning in this hands-on environment fosters students creativity and ingenuity while building a firm foundation for lifelong learning, an opportunity for specialized study and a chance to explore a diverse range of careers stemming from Engineering. It develops well-rounded citizens who are informed creators and consumers, while facilitating the development of future fabricators, innovators, and skilled workers who can contribute to solving problems not yet anticipated with processes and technologies not yet imagined in order to improve their lives, the lives of others and the environment.

WORK EXPERIENCE

WORK EXPERIENCE 11 (XAT--11WEX) WORK EXPERIENCE 12 (MWEX-2A)

NOTE: Each student who completes the 90 hour work experience program will receive credit for their 30 hours of career life exploration required for graduation as outlined in the Career Life Connections 12 course.

OVERVIEW

Work Experience gives students the opportunity to participate in, observe, and learn about the tasks and responsibilities related to an occupation or career.

In conjunction with Career Life Education 10 and Career Life Connections 12, work experience helps prepare students for the transition from secondary school to the world of work, for further education and training, or for other post-graduation opportunities.

Work Experience 11 and 12 are courses of work -based learning in a cooperative partnership between the student, the school, and the employer.

In grade 11, students are prepared for Work Experience through class work, and the students have many opportunities to complete some of their 90 required hours.

In grade 12, students complete all of the remaining portion of their 90 required hours of Work Experience--many students complete well over 100 hours.

TIMING

Work experience courses generally occur in Grades 11 and 12—usually scheduled in an <u>off-timetable period</u>.

Students will meet with their Work Experience teacher on a regular basis—sometimes at lunch, afterschool or during certain flex time periods.

COURSE REQUIREMENTS

Work experience students must complete 2 components to successfully earn 4 credits:

1. IN SCHOOL COMPONENT: classroom topics to be covered: workplace safety, appropriate workplace behavior, resume and cover letter writing, personal work placement plan, employability skills, collaboration, leadership, interview preparation, dress code, etc.

*this component is usually completed in grade 11 along with some of the 90 hours of work experience

2. OUT OF SCHOOL COMPONENT: 90 hours of work experience (volunteering and job shadowing) in the community and completion of all the necessary paperwork.

*the remaining portion of this component is usually completed in grade 12

RECOMMENDED COURSES OF STUDY AND EXPOSURE

If students wish to pursue specific areas of work experience it is recommended that they have some exposure to one or two courses in that particular area:

- If a student wishes to go to an Accounting placement they must have some Accounting knowledge (i.e. Accounting 11, Accounting 12)
- 2. If a student wishes to go to a Technology/ Computer based placement they must have some Technology knowledge (Media 11,/12 Programming 11/12)
- 3. If a student wishes to go to a Tourism/ Hospitality placement they must have some exposure to tourism and/or foods (Tourism 11, Foods 11)

NOTE: Grade Counsellors and the Work Experience Teacher can help students in choosing the appropriate courses of study.

TO BE CONSIDERED FOR WORK EXPERIENCE

Students registering for Work Experience will have:

- 1) Excellent attendance
- 2) Consistently good work habits
- 3) Good communication skills
- 4) A positive attitude and willingness to learn

BENEFITS OF WORK EXPERIENCE

Work experience provides students with the *opportunity* to:

- apply in-school learning to the world of work
- gain new learning experiences that go beyond those they receive in a school setting
- earn course credits for exploring the workplace at a practical level
- explore career choices to make informed decisions
- develop qualities and skills that are transferable to, and contribute to success in, employment and career development
- obtain references and contacts that will assist with future job searches
- gain valuable experience in diverse settings

UPON COMPLETION OF WORK EXPERIENCE

- a student will receive 4 credits towards graduation
- A student will receive credit for the Career Life Exploration requirement of 30 hours
- a student will receive a WORK EXPERIENCE CERTIFICATE at Graduation from the school

COUNSELLING SERVICES

Magee's Counselling Department offers a variety of support systems to meet the academic, vocational, personal, emotional and physical needs of our students. Counsellors often collaborate with staff, families and community resources to foster wellness and balance as our students navigate the challenges and opportunities presented to We pride ourselves on connecting personally with each and every member of our grade through: classroom visits, individual meetings, large group sessions and by "following" our students to graduation. Students are encouraged to speak to their grade counsellor directly to set up an appointment.

PEER COUNSELLING 12 (YIPS-2C)

Peer Counselling 12 is offered to Grade 12 students who want to enhance a positive school climate. The intent of the course is to equip student -leaders with the skills and knowledge needed to provide support and leadership for other students. Training includes; active listening, group facilitation, problem solving, decision making and conflict resolution, values clarification, and understanding of critical and relevant youth issues. This course includes guest speakers, community involvement, journaling, and regular classes.

ENGLISH LANGUAGE AND LITERATURE

Magee's English program provides students with the opportunities to develop a solid foundation in their study of English language and literature. Not only does the program encourage enjoyment and appreciation of language and literature, but it affords students the opportunities to acquire the tools, techniques, and strategies which will enable them to convey their understanding of what they hear, read, and see and to express their ideas, thoughts, and feelings clearly and coherently.

ENGLISH LANGUAGE ARTS 8 (MEN--08)

In our intermediate language arts program, students will develop their literacy and their awareness of themselves as readers, with primacy given to the printed word and consideration given to visual and digital texts, including such things as graphic novels, video (conventional film, Youtube, other digital media), video games, and informational and

social media. Students will engage in critical and creative thought response to various texts, and will develop communication skills, with primacy given to the written word, including sentence fluency, usage, and style, as well as rhetorical considerations such as audience and purpose. Attention will also be given to oral visual language and representation of meaning.

ENGLISH LANGUAGE ARTS 9 (MEN--09) Recommended: English Language Arts 8

In our intermediate language arts program, students will develop their literacy and their awareness of themselves as readers, with primacy given to the printed word and consideration given to visual and digital texts, including such things as graphic novels, video (conventional film, Youtube, other digital media), video games, and informational and social media. Students will engage in critical and creative thought in response to various texts, and will develop communication skills, with primacy given to the written word, including sentence fluency, usage, and style, as well as rhetorical considerations such as audience and purpose. Attention will also be given to oral language and visual representation of meaning. The skills and understandings considered in ELA 8 are further developed in ELA 9.

ENGLISH LITERARY STUDIES 10 (MLTST10)

Recommended: English Language Arts 9

For English 10, students will take two 2-credit courses. All students will take the Literary Studies course (2 credits) which will be bundled with one of Composition or Creative Writing (each 2 credits):

Literary Studies 10 is designed to allow students to delve more deeply into literature as they explore specific themes, periods, authors, or areas of the world through literary works in a variety of media. Students will:

- increase their literacy skills through close reading of appropriately challenging texts
- enhance their development of the English Language Arts curricular competencies, both expressive and receptive
- expand their development as educated global citizens
- develop balance and broaden their understanding of themselves and the world
- develop higher-level thinking and learning skills

Plus one of:

Composition 10 (MCMPS10), which is designed to support students in their development of written communication through a critical process of questioning, exploring, and sampling. The course builds students' writing competencies by introducing them to varied structures, forms, and styles of compositions. Students have opportunities to individually and collaboratively study, create, and write original pieces, exploring audience and purpose. They also develop their craft through processes of drafting, reflecting, and revising, or:

Creative Writing 10 (MCTWR10), which is designed to support students' interest in

creative expression through language. The course provides students opportunities to build their writing skills through the exploration of identity, memory, and story in a range of genres. Students will collaborate and develop their skills through writing and design processes. This course invites students to express themselves creatively as they experiment with, reflect on and practice their writing.

COMPOSITION 11 (MCMPS11)

Recommended: An English 10 4 credit combo

In this 4 credit course, students develop strong communication skills in both speaking and writing. They are given many opportunities to express their ideas, thoughts, and opinions, both orally and in writing. Students review punctuation, grammar, syntax, diction, and mechanics to enable them to communicate clearly; they write in narrative, descriptive, and expository modes. Students also experience the complexity and versatility of the English language by reading and studying the short story, the novel, poetry, Shakespearean drama and the essay. They participate in class and small group discussions so that they can share ideas and develop their oral communication and listening skills.

LITERARY STUDIES AND WRITING 11 (MEFLS11)

Recommended: An English 10 4 credit combo

This 4 credit course is recommended for students considering taking AP Literature and Composition in grade 12, and may be taken in addition to, or instead of Composition 11. Lit Studies 11 resembles the old Literature 12 course, and surveys, in chronological sequence, the major writers of English Literature from Anglo-Saxon times to the 20th century. Students learn not only about the literature, but also about the cultural, social, political, and economic changes which influenced and shaped the lives of everyone, including the writers, in the English-speaking world. Students also learn literary terminology and critical analysis. Students participate in a variety of reading, writing, speaking, and listening experiences; the course seeks to assist students in developing their critical and creative thinking skills.

ENGLISH STUDIES 12 (MENST 12)

Recommended: English 11

English Studies 12 is the required English 12 course, which emphasizes the critical approach to communication through reading, writing and thinking. Students read and study short stories, novels, Shakespearean drama, poetry

and essays. They develop their composition skills with particular emphasis placed on the organization and structure of expository writing, although they also write in narrative and descriptive modes. Additionally, students work on developing their writing style and their oral communication skills in class and small group discussions.

AP ENGLISH 12 LITERATURE & COMPOSITION (AELC-12)

Recommended: LITERARY STUDIES 11

Students may take this class to fulfill their English Studies 12 requirement, or in addition to that course. The Advanced Placement Literature and Composition course prepares students to write the AP exam which is set by the American College Board, the same organization that sets the SAT exams and other qualifying exams. The ΑP exam challenging. Students must be prepared to read widely and thoughtfully from authors of generally acknowledged literary merit, and to work hard to refine their own academic writing about literature. The focus of the course is close reading of literary texts, and clear expression of the understandings that develop. Successful completion of the exam may provide students with an advanced credit at a North American college or university.

YEARBOOK 10, ANNUAL PRODUCTION 11 and 12 (YCCT-0C, YCCT-1C, YCCT-2F)

Recommended: English 10 or in English 10 4 credit combination courses. Open to students in Grades 10, 11 and 12

Annual Production is a practical, hands-on course in which the Magee yearbook is created and produced. Students gain experience in almost all aspects of book production, from planning and design to distribution of the finished product.

The photography component is now entirely digital. Students take formal posed shots as well as a wide variety of candid and action shots. Yearbook staff members gather information and produce write-ups about school sports teams, fine arts groups, clubs, and events. Layouts are done digitally, using Adobe InDesign. Adobe *Photoshop* is also used for manipulating images.

The course mission is to produce a technically proficient and visually appealing yearbook that is inclusive, positive and up-beat, and respectful of everyone in the Magee community. This can be a very rewarding course for students who are motivated, responsible, and prepared to work on the project outside of class time. Success in this course requires commitment and initiative.

ENGLISH LANGUAGE LEARNING

Students new to Canada, either local or International, may require English Language Support. The English Language Learning program provides this support, based on assessment which may have been completed in district offices such as the VSB International Education Office or the Newcomer Welcome Centre. The assessment indicates the level of English proficiency and areas of reading, grammar, and writing that need further development. The ELL Department may also assess students upon arrival.

ELL Classes are divided into Beginner and Intermediate levels, and are provided to assist with vocabulary development, reading. speaking and listening skills in the subjects of Reading, Social Studies, Science and Writing. ELL students will usually be placed in four of these subject area classes. Students will also take grade level PE, Mathematics, Career Education, and three other electives from either Fine Arts, Applied Skills, Music, Technology, Home Economics, or Business Education. ELL students receive a timetable of their courses from their respective counsellors, also based on assessment.

Transition

Movement from ELL Beginner or Intermediate level classes is based on assessment of English language proficiency; it is not based on current grade level. Students are usually recommended by the ELL department for grade level English only when teachers are confident that the students will succeed with the demands of the grade level English course.

ACADEMIC STRATEGIES FOR ELL LEARNERS 10 (YESFLOA)

Transitional English 10 and Academic Strategies 10 are courses available to English Language Learners at the transitional level of language proficiency. The Academic Strategies class provides additional English language support for ELL students who are moving into regular academic courses. In this course, students review and further develop the language skills introduced at the Beginner and Intermediate levels. The curriculum places a greater emphasis critical thinking on skills, communication, and formal writing.

ELL Program	Transitional Program	Regular English Program

THEATRE

DRAMA 08 (MDR--08)

This course introduces students to the whole range of Drama activities: improvisation, theatre sports, basic acting and speaking skills and scene composition. Each Drama 8 class is assisted by experienced senior students who act as coaches and demonstrators. There is plenty of intellectual and creative challenge for students who have some acting experience and for those who have none, as well as for those who wish to overcome shyness and improve their self-confidence and verbal skills.

DRAMA 09 (MDR--09)Recommended: DRAMA 8

Drama 9 is a full year course that builds on the skills learned in Drama 8: improvisation, creative thinking, problem solving, and verbal skills. Some projects are of longer duration than those in Drama 8 and concentrate on building new skills in scene composition and stage technique. Drama 9 uses a wide selection of enjoyable activities as starting points for acting.

DRAMA 10 (MDRM-10)Recommended: DRAMA 9

Drama 10 is a fast moving course which focuses on acting technique through script work and improvisation. Students will learn both acting and technical production skills in this course. Drama 10 also includes units in play building, script writing and musical theatre. A production for elementary schools is frequently a feature of this course.

DRAMA COACHING 10 (MDRTC10)

Prerequisite: Permission of Instructor.

This course is for Grade 10, 11 and 12 students with a strong background in drama and acting who wish to develop and share their leadership and theatre skills with younger students. The Coach works along with the teacher in a Grade 8 or 9 Drama class as a director, demonstrator and group leader. As a teaching assistant, the Coach assumes considerable responsibility and challenge. Coaching is a valuable and rewarding experience for the student who has a particular interest in teaching and/or directing.

Drama 11 and 12- ACTING 11 and ACTING 12 (MDRM-11, MDRM-12)

Recommended: DRAMA 11 for DRAMA 12

The goal of all senior courses is to build theatrical skills, self-confidence and speaking skills, and to provide students who wish to pursue further study in this area with a solid, comprehensive acting background.

Drama 11 and 12 are performance classes that stress scene work and criticism as well as improvisation. Students have opportunities to play a variety of characters and styles. Scenes are mainly chosen from modern comedies and tragedies but may also come from older, classic plays. Directing and a variety of special workshops may also be included.

FILM AND THEATRE CRITICISM 11/12 (MVAMT11- Gr. 11, YLE--2E- Gr. 12)

Open to senior students.

Theatre and Film Criticism's goal is to promote understanding of how effective performance is achieved by watching many different types of performances: improv, films, plays, musicals. The course gives students an opportunity to attend professional, college, and university productions in well-known and popular venues like the Arts Club, the Cultch, and Studio 58, as well as films from film festivals and Hollywood. The class attends performances in the evening and meets at lunch-time every Monday for reflection and discussion. Students will learn to critically assess performances based on technical elements, scripts, and directorial choices, to explore creative risks, and to express these criticisms in an eloquent fashion, both orally and in writing. This course is designed for mature students with a keen interest in theatre and film.

MAGEE MAINSTAGE PROGRAM

Mainstage is a two-year program, which gives credit for two courses in each year.

Mainstage Theatre Company 11 (MDRTC11)
Mainstage Theatre Musical Theatre 11 (MMUTH11)
Theatre Production 11 (MDRTP11)

Mainstage Theatre Company 12 (MDRTC12) Mainstage Theatre Musical Theatre 12 (MMUTH12) Theatre Production 12 (MDRTP12) A strong background in Drama is required. Enrollment is limited and depends on an audition and the student's specialization.

Magee Mainstage is an intensive production program for serious acting students and those who seek a challenge beyond that usually offered at the secondary level. The highest standards of work and dedication are required.

Students become members of a production company. A wide range of productions usually includes comedies, dramas, devised theatre, and a musical production. In addition, students have extensive experience with field professionals, and the opportunities to attend workshops, festivals, and conferences.

Magee Mainstage puts special emphasis on orienting students to post-secondary programs and the profession through career counselling and audition coaching.

MUSIC- INSTRUMENTAL

BEGINNING BAND 8, 9, 10 (MMU--08BA1, MMU--09BA1, MMUCB-10--1)

In Beginning Band, students with no previous band instrument experience will learn the fundamentals of playing an instrument from one of the following family - brass, woodwind, percussion or bass. Students will learn proper

posture, hand position, how to create the sounds, how to read notes, rhythms, musical terms and symbols, and how to play together in a group. This course is open to students in grades 8-10.

Students will perform in concerts at school.

JUNIOR BAND 8, 9, 10

(MMU--08BA2, MMU--09BA2, MMUCB-10--2)

Prerequisite: 1 year of band experience, or 1 year of private lessons or permission of the teacher.

Junior Band is for students with at least one year of band experience playing a woodwind, brass or percussion instrument either at the elementary or high school level. This course is open to students in grades 8-10. Students will continue their development of musicianship, sight reading, theory, and ear training through a variety of band repertoire. Students will perform at school, district band festivals and, if numbers are sufficient, on a retreat to Whistler.

Symphonic Band is for students with at least three years of band experience playing a woodwind, brass or percussion instrument either in high school or through private lessons. This course is open to students in grades 9 -12 depending on their skill and experience. Students will continue to develop their playing skills, sight reading, theory, and ear training a variety of band through repertoire. Students will perform at school concerts, district band festivals and, if numbers are sufficient, on a performance or festival tour.

Prerequisite: 2 years of band experience, or 2 years of private lessons or permission of the teacher.

Intermediate Band is for students with at least two years of band experience playing a woodwind, brass or percussion instrument either in high school or through private lessons. This course is open to students in grades 8-11 depending on their skill and experience. Students will continue to develop their playing skills, sight reading, theory, and ear training through a variety of band repertoire. Students will perform at school concerts, district band festivals and, if numbers are sufficient, on a performance or festival tour.

SYMPHONIC BAND 9, 10, 11, 12 (MMU--09BA4, MMUCB-10--4, MIMCB11--4, MIMCB12--4)

WIND ENSEMBLE 10, 11, 12 (MMUCB-10--5, MIMCB11--5, MIMCB12--5)

Prerequisite: 3-4 years of band experience, or 3 -4 years of private lessons, or permission of the teacher.

Wind Ensemble is the top instrumental ensemble in the school. Entrance into Wind Ensemble is based on advanced playing skills and the amount of instruments needed in the band. Students should have at least 3-4 years of high school playing experience or 3-4 years of private lessons. Auditions may be required if there are too many instruments in one section. Wind Ensemble students are expected to perform at school concerts, district events, community concerts, national and international tours and festivals. Previous tours have included Canada, United States, Russia, Japan, Central Europe, Spain, UK, and Cuba. Scholarships are awarded to top students upon graduation.

JUNIOR JAZZ BAND 8, 9, 10 (MMU--08JB2, MMU--09JB2, MMUJB-10--2)

Prerequisite: 1 year of band experience, or 1 year of private lessons or permission of the teacher. Student must also be registered in a concert band course.

Junior Jazz Band is for students that have at least one year's playing experience in band or private lessons. Students don't need any experience in playing jazz music and may play a different instrument than what they play in concert band. Students are introduced to the following musical styles: jazz, rock, Latin: Brazilian/Afro-Cuban, funk and fusion. Students are introduced to the basics of jazz articulation styles, swing rhythms improvisation. Students will perform at school and district concerts, community events.

SENIOR JAZZ BAND 10, 11, & 12 (MMUJB-10--4, MIMJB11--4, MIMJB12--4)

Prerequisite: Junior Jazz Band, 3 years of band experience, or 2-3 years of private lessons, or permission of the teacher. Student must also be registered in a concert band course.

Senior Jazz Band music is for advanced band students that have at least 3 year's playing experience in band or private lessons. Students will play advanced music in the following musical styles: jazz, rock, Latin: Brazilian/Afro-Cuban, funk and fusion. Students will continue to improve jazz technique and improvisation. Students will perform at school and district concerts, festivals, community events and on the senior tour.

ORCHESTRAL STRINGS 8 – 12 (MMU--080S1, MMU--90S1, MMUOR10, MMUOR11, MMUOR12)

Prerequisite: One or more years of experience on a bowed string instrument (Violin, Viola, Cello or Acoustic Upright Bass) in an Orchestral Strings program, or through private lessons.

This course develops string technique and ability and explores string orchestra music designed to challenge students as they progress. Music in a variety of styles and studied. Many historical periods is opportunities for mentorship and leadership are presented to select students throughout the year and it is expected that students attend performances at various throughout the year as well as weekly sectional rehearsals. This course is not open to beginners; at least one year of orchestral training, either ensemble or private, required.

SYMPHONY ORCHESTRA 9-12 (MMU-09SY4, YVPA-OA--4, YVPA-1A--4, YVPA-2A--4)

Prerequisite: Prior instrumental experience strongly recommended.

Co-requisite: Must be concurrently enrolled in either a Concert Band or String Orchestra course at Magee at student's current grade level.

The Magee Symphony Orchestra (MSO) gives the opportunity for a select number of students to experience playing in an ensemble that combines both strings and band instruments. This unique and exciting program, offered only at one other school in the district, will enrich its members by offering an authentic musical experience similar to what they would get if playing in a professional orchestra. Repertoire will consist of a wide variety of genres including film scores, familiar classical, and stage/Broadway musical pieces. This is an off-timetable course that will meet in an afterschool block

MUSIC- CHORAL

CONCERT CHOIR 8 – 12 (MMU--08CC1, MMU--09CC1, MMUCC-10, MCMCC11, MCMCC12)

Sing! Sing! Students passionate about singing, as well as new singers wanting to try out their voices for the first time meet to rehearse and create music and community together during alternate lunch hours (period 6) in the Magee Concert Choir! With no prior singing experience required nor the ability to read music, students will learn the techniques for effective vocal production, ear training, and sight reading. The class surveys and studies all aspects of serious choral literature in all styles. Concert and sectional attendance are part of the course. This experience is open to any

student who wishes to work in a singing ensemble at the school, and new members are welcome at any age or grade level.

JUNIOR CHAMBER CHOIR: Evolution Choir 9-12 (MMU--09JV2, MMUVJ-10--2, MCMJV11--2, MCMJV12--2)

Permission of the teacher and audition required. Prior experience in Concert Choir is highly recommended.

This intermediate vocal ensemble explores a variety of a cappella choral literature for small ensemble including early chamber music, modern, folk, and other ensemble literature. Vocalists learn skills from basic unison singing through to more complex 4-part harmony. Sight-singing and ear training are explored as is a stronger focus on how to properly create vocal textures and tone. Students enrolled in these classes are also required to concurrently enroll in Concert Choir.

CHAMBER CHOIR 9 – 12 (MMU--09CH, MMUCH10, MMUCH11, MMUCH12)

Audition required. Previous Choral experience strongly recommended.

In this advanced vocal ensemble, students engage in a serious study of a cappella literature from a variety of periods and styles. Students are expected to learn correct vocal production, style techniques and related theory. Students are also required to concurrently enroll in Concert Choir.

VOCAL JAZZ ADVANCED: Elation Ensemble 9-12 (MMU--09VJ4, MMUVJ-10--4, MCMJV11--4, MCMJV12--4)

Permission of the teacher and audition required. Prior experience in Concert Choir is highly recommended.

This advanced vocal ensemble studies a variety of a cappella choral literature for small ensemble including modern and classic vocal jazz, folk, and other ensemble literature. Vocalists learn more advanced vocal techniques; sight singing and ear training are explored as well as a stronger focus on how to properly create vocal textures and tone. Students enrolled in these classes are also required to concurrently enroll in Concert Choir.

VISUAL ARTS

VISUAL ART 8 and 9 (MVA--08, MVA--09)

Students explore the elements and principles of art and design through drawing, painting, printmaking, sculpture, ceramics and mixed media. Students are introduced to art history and begin to develop an appreciation for contemporary artists.

VISUAL ART 10 (MVAST10)

Recommended: Art 8 or 9

Working in a variety of media including painting, printmaking, sculpture and ceramics, students further develop the foundation skills acquired in Art 9. An introduction to art appreciation and art history helps students develop the skills necessary to critique their own work and that of others. It is at this level that art students begin to become aware of a personal style in the expression of their art. Students are required to work independently

on a visual journal (sketchbook).

ART STUDIO FOUNDATIONS 11 (MVAST11) Recommended: Art 10

NO ART EXPERIENCE NECESSARY! This senior class is a fun and creative course and requires no previous art experience. Students will be introduced to a variety of media such as oil pastels, paints, charcoal, India ink, collage, ceramics, and printmaking. A sketchbook of ideas, interests and artwork is worked on each week. Effort and a willingness to try new things are at the foundation of this course.

STUDIO ARTS 2D 11 (MVAD-11)

Recommended: Art 10

This senior course is for art students who see their art work as an important part of their personal expression. Students entering this course will have developed an art vocabulary and critical skills for use in class discussions, which will be frequently used as a means of understanding each other's art work. This course introduces more substantial and sophisticated projects in a variety of media with which students are already familiar.

Students are required to work independently on a visual journal (sketchbook).

•

ART STUDIO FOUNDATIONS 12 (MVAST12)

Recommended: Art 11

NO ART EXPERIENCE NECESSARY! Learn to draw what you see and create what you imagine. Art Studio Foundations 12 builds on the confidence gained in Art Studio11 and may include further exploration of some of the same materials and methods. Instruction may include water colour painting, sculpture, charcoal and conte work, wire sculpture, print making, and line drawing techniques. A sketchbook of ideas, interests and artwork is worked on each week. In addition to effort and a willingness to try new things, a beginning understanding and use of the principles of art and design is the foundation for this course.

STUDIO ARTS 2D 12 (MVAD-12)

Recommended: Art 11

This course is for advanced students for whom art is an integral part of self-expression. In consultation with the instructor, students embark on a series of mandatory and self-directed projects in a variety of media. For students wishing to apply to a post-secondary

art institution, this course provides the opportunity to create a balanced and varied portfolio. Art appreciation and criticism are important components of study. Students will take part in field trips to galleries and exhibitions as part of this course.

Students will be required to work independently on a visual journal (sketchbook).

PRE-AP STUDIO ARTS 10 (MVAD-10) and PRE-AP STUDIO ARTS 2D 11 (MVAGA11)

Permission from teacher is required.

This demanding course is designed for highly motivated students who wish to challenge themselves as artists. Students will have a chance to use such methods as print making, collage, figure drawings, colour drawings, acrylic painting and watercolour, to create personally meaningful artwork and produce a strong art portfolio. Pre AP Studio Arts 10 and Pre AP Studio Arts 11 are designed to serve the unique needs of students intending to pursue their art at a postsecondary institute. Students will assemble a body of work to serve as an admission portfolio to the art college of their choice.

Students will take part in field trips to galleries and exhibitions as part of this course. Artists and art school representatives will

provide workshops and information about future opportunities.

An up-to-date visual journal (sketchbook) is required.

AP ART - STUDIO ARTS Drawing and Painting 12 (ASAD-12)

Recommended: Pre AP Studio Art 11

An interview and art presentation with the teacher is required.

AP Art - Studio Arts Drawing and Painting 12 is designed to serve the unique needs of students intending to pursue their art at a postsecondary institute. Students assemble a body of work to serve as an admission portfolio to the art college of their choice. AP Art – Studio Art Drawing and Painting 12 is the course designed for highly motivated students. In response to class assignments, students will use a wide variety of media to show their understanding of the elements and principles of design. Students will be expected to work to create a concentration of thematically related art, which demonstrates a clear personal style. Students will take part in field trips to galleries and exhibitions as part of this course. Artists and art school representatives will provide workshops and information about future opportunities for post-secondary careers in the arts.

An up-to-date visual journal (sketchbook) is required.

AP 2D DESIGN PORTFOLIO 12 (A2DP-12)

Recommended: AP Studio Arts 11 & concurrently taking AP Studio Arts Drawing and

Painting 12

This is an external credit course offered within the school curriculum. This course requires a significant amount of out of class time commitment. Students complete a rigorous portfolio of 20 pieces of artwork and will have the option of submitting their portfolio for outside AP evaluation. The portfolio is sent to New Jersey in May for adjudication by a team of international judges. If successful, the AP Art Exam will be recognized as completion of a first year University course.

Students must receive teacher approval before enrolling. Students will be in a double block of AP Art Drawing and Painting 12 + AP Studio Arts 12.

CERAMICS and SCULPTURE 9 – 12 (MVA--09CR1, MVAC-10, MVAC-11)

Open to students in Grades 9 - 12

This course will provide an opportunity for students to explore the extensive and magical qualities of clay and sculpture. Students will develop strong hand-building skills (pinch pot, coils, slabs etc.) as well as begin to develop throwing skills on the potter's wheel. Surface treatment techniques such as glazing and staining will be taught and developed. This course will challenge students to dream, design and CREATE!

ADVANCED CERAMICS and SCULPTURE 10 - 12 (MVAC-12)

Recommended: Intro Ceramics and Sculpture or permission of teacher.

Open to students in Grades 10 - 12.

*Students may take this course ONCE

This course will provide an opportunity for students to develop advanced techniques in hand-building, throwing and surface treatment of clay while enabling and encouraging students to work to create a body of thematically related art which demonstrates personal style and growth. This advanced course extends and expands upon the skills acquired in Intro Ceramics. In this class we will push to create and explore the alchemy, structures and surfaces of clay.

PHOTOGRAPHY 10 (MVAPH10) and PHOTOGRAPHY 11, (MVAPH11)

Open to Grades 10 - 12

In this beginner's photography course, students learn about the history of photography and the great photographers of the world. The course will include a blend of analog and digital technologies both in the darkroom and digitally. They will learn to produce perfect negatives through proper use of the SLR camera, processing and printing and

understanding what makes a photo great. Students take part in critique sessions, gallery visits and reports.

A 35 mm SLR camera is recommended.

PHOTOGRAPHY 12 (MVAPH12)

Recommended: Photography 11

Students develop and present a personal photo essay as part of this course, along with a Photo Portfolio which could be used for admissions to post-secondary studies. Classroom critiques are very important aspects of this course as they help students further develop their critical eye in order to help them refine their personal imagery as a photographer. Students take part in critique sessions, gallery visits and reports.

A 35 mm SLR camera is recommended.

All students must study mathematics from grade 8 to 11. The mathematics program at Magee allows students to pursue mathematics within the framework of the provincial mathematics curriculum. The math department also offers highly motivated students the opportunity to take Advanced Placement Calculus in their grade 12 year.

While Mathematics 8 and Mathematics 9 are common for all students, at the senior level there are three pathways students can choose from:

1. Workplace Mathematics (grades 10 and 11) These courses are designed to provide students with the mathematical understandings and critical-thinking skills identified for entry into the majority of trades, via a technical college or a trade school, and/or for direct entry into the workforce.

2. Pre-Calculus (grades 11 and 12)

These courses are designed to provide students with the mathematical understandings and critical-thinking skills identified for entry into post-secondary studies in programs that require the study of theoretical calculus.

3. Foundations (grades 11 and 12)

These courses are designed to provide students with the mathematical understandings and

every grade level at Magee. These courses are designed to give capable students who are enthusiastic about the study of mathematics the space and time to pursue that interest, while still covering the relevant course content. In addition to the standard course content, a variety of enrichment topics are covered, and participation in mathematics contests is expected. The criteria for entry into the enriched program at each grade level are

critical-thinking skills identified for entry into post-secondary studies in programs that require the study of mathematical fields other than calculus such as discrete mathematics, geometry, logic and statistics.

Each pathway has several proficiencies that they address; for the most part, there is very little overlap between each of the three courses above. It is possible to take more than one of these mathematics courses.

Enriched Mathematics Program:

There are enriched math classes offered at

outlined in the individual course descriptions below. Continued placement in the program is not guaranteed from year to year, and the admission criteria for each applicant is evaluated during the yearly course planning process by the department head.

Note: Magee offers an accelerated/enriched mathematics course at the grade 9 level. Students who take this class are doubled blocked in their grade 9 year and will cover two courses, earning credit for both Mathematics 9 and Foundations of Mathematics and Pre-Calculus 10.

MATH 8 (MMA--08)

This course is designed to provide students with a foundation of mathematical skills. Mathematics 8 consists of 5 strands of study. 1) Number: operations with fractions, perfect squares and cubes, square and cube roots, percentages and proportional reasoning, 2) Patterns and Relations: involves solving two-step and graphing linear equations, 3) Shape and Space: Pythagorean theorem, nets, surface area and volume, 4) Statistics and Probability: independent events and 5) Financial Literacy.

MATH 8 HONOURS (MMA--08ENR)

Prerequisite: It is expected that students wishing to enroll in this course will write the placement exam held mid-spring each year. It is also recommended that students write the Gauss 7 mathematics contest. Permission of the department head may also be required, and timetabling constraints may limit class availability.

This enriched course is intended to highly motivated students who have demonstrated good mathematical ability and are enthusiastic about studying and exploring mathematical topics. The course covers the entire Mathematics 8 curriculum and provides several opportunities for enrichment and critical thinking. Students will be expected to participate in the Gauss 8 mathematics competition as a part of this course. This is not an accelerated course.

MATH 9 (MMA--09)

Recommended: Mathematics 8 or Mathematics 8 Honours

This course is designed to provide students with math foundations identified for mathematical understandings used in everyday life and future math studies. Mathematics 9 consists of 5 strands of study. 1) Number:

rational numbers, order of operations and square roots, and exponent laws, 2) Patterns and Relations: solving multi-step one variable linear equations and graphing two variable linear equations, extrapolation and interpolation, basic polynomial operations, 3) Shape and Space: scale diagrams and spatial proportional reasoning, 4) Statistics and Probability: use of statistical language, collect and analyze data, and probability. 5) Financial Literacy.

MATH 9 HONOURS with FOUNDATIONS OF MATH and PRE-CALCULUS 10 (MMA--09ENR, MFMP-10ENR)

Prerequisite: Recommendation of the grade 8 teacher, and successful completion of Math 8 or Math 8 Honours. Participation in the Gauss 8 contest is recommended. Permission of the Department Head may also be required, and timetabling constraints may limit class availability.

This accelerated, double-block dual credit course is intended for highly motivated students who have demonstrated good mathematical ability, and who are enthusiastic about studying and exploring mathematical topics. The course covers the entire Mathematics 9 and Foundations of Mathematics & Pre-Calculus 10 curricula, as well as providing opportunities for enrichment and critical thinking. Students will be expected to participate in the Pascal mathematics contest as a part of this course.

FOUNDATIONS and PRE- CALCULUS 10 (MFMP-10)

Recommended: Math 9 or Math 9 Honours

This course is designed to provide a foundation of both theoretical and applied mathematics. The course content includes four strands

- Algebra and Number: operations on powers with integral exponents, multiplication of polynomial expressions, and polynomial factoring,
- Relations and Functions: linear relations including slope, equations of lines, solving systems of linear equations, function analysis.
- 3) Experimental probability and relationships among data, graphs and situations.
- 4) Financial Literacy: gross and net pay.

FOUNDATIONS OF MATHEMATICS 12 (MFOM-12)

Recommended: MFMP 10 and/or MFOM 11

This course continues to build and develop on topics addressed Foundation 11. This course is recommended students for who are continuing post-Secondary studies in Arts faculty

FOUNDATIONS OF MATHEMATICS 11 (MFOM-11)

Recommended: FMP 10 and/or FOM 10 This course is designed for students planning for a career in law, nursing, fine arts, arts, or the social sciences. Examples of post-secondary studies supported by this course include archaeology, communications, criminology, history, languages, international studies, political science, and psychology.

Students enrolled in this course will study Euclidean geometry, trigonometry, linear inequalities, quadratic functions, statistics and (examples: Archaeology, Criminology, History, Languages, International Studies, Political Psychology and more), Science, many Communications faculty, Education faculty or Fine Arts faculty. **Topics** include: Transformations with iterations to create fractals, graphical representations polynomial, logarithmic, exponential and sinusoidal functions, regressions, set theory and conditional statements, combinatorics, financial mathematics, and logical reasoning. Students may wish to take Pre-Calculus 11/12 concurrently with Foundations 12.

PRE-CALCULUS 11 (MPREC11)

Recommended: MFMP 10

This course is designed for students planning to enter a college or university in the Applied Science, Science, or Commerce faculty. The main areas of study are the real number system, operations on powers with rational exponents and radicals, exponential functions, rational expressions and equations, quadratic functions and equations, trigonometry, and the study of financial literacy with the focus on investments and loans, will be covered. This is a highly theoretical course. This course gives students the graduation requirement in mathematics. Students may wish to take Pre-Calculus 11 concurrently with Foundations 11/12.

PRE-CALCULUS 11 HONOURS (MPREC11ENR)

Prerequisite: Recommendation of the grade 10 teacher, and successful completion of MFMP 10. Participation in the Pascal or Cayley contest is recommended. Permission of the Department Head may also be required.

This enriched course is intended to highly motivated students who have demonstrated good mathematical ability and are enthusiastic about studying and exploring mathematical topics. The course covers the entire Pre-

Calculus 11 curriculum and provides several opportunities for enrichment and critical thinking. Students will be expected to participate in the Cayley or Fermat mathematics competitions as a part of this course.

PRE-CALCULUS 12 (MPREC12)

Recommended: MPREC11 or MPREC11 Honours

This course continues to build and develop topics addressed in Pre-Calculus 11. This is a theoretical course supporting students who are continuing in post-Secondary studies in Applied Science, Science or Commerce. Topics include: Sequences and series, trigonometric functions with and equations real numbers. trigonometric identities, transformations of functions, exponential equations, operations on logarithms, logarithmic functions and equations, polynomial functions and equations, and conics. Students may with to take Pre-Calculus 12 concurrently with Foundations 11/12.

PRE-CALCULUS 12 HONOURS (MPREC12ENR)

Prerequisite: Recommendation of the grade 11 teacher, and successful completion of MPREC 11. Participation in the Cayley or Fermat contest is recommended. Permission of the Department Head may also be required.

This enriched course is intended to highly motivated students who have demonstrated good mathematical ability and are enthusiastic about studying and exploring mathematical topics. The course covers the entire Pre-Calculus 12 curriculum and provides several opportunities for enrichment and critical thinking. Students will be expected to participate in the Fermat or Euclid mathematics competitions as a part of this course.

CALCULUS 12 (MCALC12) and AP CALCULUS 12 (ACAL-12)

Recommended:

- Regular Section (Calculus 12): Completion of MPREC 12, or this course may be taken concurrently with MPREC 12.
- Advanced Placement Section: Completion of MPREC 12 with a grade of "A", or this course may be taken concurrently with MPREC12 with the recommendation of the grade 11 teacher and permission of the department head.

These courses are for students intending to further their studies in Mathematics and Science at the post-secondary level. Both courses offer an introduction to the principles of differential and integral calculus. These courses demand skills in higher mathematical analysis and should be attempted only by motivated students who fulfill the prerequisites. Calculus 12AP is a high-level course which gives successful students credit for first year calculus at most universities and colleges, subject to completion of the AP exam with an adequate score. The exam is set by the College Testing Board, and is usually written in May.

HISTORY OF MATHEMATICS 11 (MHOM-11)

Recommended: MFMP 10

In this course, students will explore, analyze, and strategize approaches to solving historical puzzles. Valued disposition such as flexibility and persistence will be applied to the discovery of numbers, patterns, and development of mathematical wonders through time.

The evaluation is mainly project based with some formal testing.

STATISTICS 12 (MSTAT12)

Recommended: MFMP 10

This course is designed to provide students with both a theoretical and practical knowledge of statistical methods of data analysis and basic experimental design. The course is open to students with a wide range of mathematical backgrounds and is specifically encouraged for any students interested in pursuing further studies in the natural sciences, social sciences (psychology, criminology, etc.), or economics. It can be taken by any student that has completed MFMP 10. Topics covered include both descriptive statistics (central tendency, variability, correlation) and inferential statistics (hypothesis confidence intervals, statistical significance). Students will also learn how to perform these analyses using statistical software.

Magee Mathematics Choices by Grade

		nematics Choice		
GRADE 8 2 Choices	GRADE 9 2 Choices	GRADE 10 2 Choices	GRADE 11 6 Choices	GRADE 12 6 Choices
Choice 1: Math 8 (MA08) Recommended: • Completion of Math 7	Choice 1: Math 9 (MA09) Recommended: • Completion of Math 8	Choice 1: Foundations and Pre- Calculus of Mathematics 10 (MFMP-10) Recommended: • Completion of Math 9	Choice 1: Foundations of Mathematics 11 (MFOM-11) Recommended: • Completion of MFMP 10 and/or MFOM 10	Choice 1: Foundations of Mathematics 12 (MFOM-12) Recommended: • Completion of MFMP 10 and/or MFOM 11
Choice 2: Math 8 Honours (MA08ENR) Recommended: Placement exam - occurs in mid-spring Gauss contest participation Permission of Department Head	Choice 2: Math 9 and Foundations and Pre-Calculus of Mathematics 10 Hon- ours* (MMA09ENR, MFMP- 10) Recommended: • Completion of Math 8 • Recommendation of Math 8 teacher • Gauss contest partici- pation • Permission of Depart- ment Head	Choice 2: Workplace Math 10 (MAWM-10) Recommended: • Completion of Math 9	Choice 2: Pre-Calculus of Mathematics 11 (MPREC-11) Recommended: Completion of FMP 10	Choice 2: Pre-Calculus of Mathematics 12 (MPREC-12) Recommended: Completion of MPREC 11

MODERN LANGUAGES

FRENCH 8 (MFR--08)

Grade 8 students use French as a tool for communicating about everyday topics they find interesting. They are provided with multiple opportunities to practice and develop linguistic skills in new and interesting contexts and in meaningful to Grade 9 students. They acquire practical information from everyday sources chosen for their relevance to this age group. Students' exposure to and appreciation of creative works is strengthened through structured assignments which help monitor their viewing and listening of French artistic productions. Cultural differences are celebrated in a context that promotes sharing and acceptance of other groups.

different groupings. French language materials used in this course provide the information necessary for the successful completion of simple tasks. Students are given opportunities to experience popular culture through exposure to various works by Francophone artists, enabling them to explore a variety of Francophone cultures around the world.

FRENCH 9 (MFR--09)

Recommended: French 8

The focus of this course is to further the development of students' communication skills for practical purposes in situations which are

FRENCH 10 (MFR--10)

Recommended: French 9

Students at this level are encouraged to take risks to communicate in various ways. While emphasis remains on the practical and everyday use of language, students develop their descriptive abilities to link and narrate events in sequence. Involvement with creative works increases with students making personal choices and responding creatively from a variety of options. French 10 students examine the role of cultural practices and traditional language patterns in shaping their own identify and that of Francophones.

French 10 for Former French Immersion Students (MFR--10ENR)

This course is designed for Grade 8 and 9 students with a French Immersion or Intensive French background. Students will continue to develop and refine their oral and written communication skills with the aid of French texts. They will have the opportunity to create and share their own stories and to develop active listening skills. Focus areas will include the study of Francophone cultures throughout the world (history and current events), presentations and debates. Students are expected to speak French during class. Credit for French 10 FSL will be obtained upon successful completion of the course. A placement test must be taken prior to registration.

FRENCH 11 (MFR--11)
Recommended: French 10

Students are able to interact with increasing confidence in familiar situations. They can describe or narrate events they witness or experience. They have the necessary skills to research relevant information to accomplish specific tasks. At this level, students are exposed to creative works from a variety of genres, time-periods, and Francophone regions of the world. As their knowledge of Francophone culture increases, they also enhance their ability to make observations about their own culture.

FRENCH 12 (MFR--12)

Recommended: French 11

Students in French 12 are expected to be able to use their French communication skills to cope in most common situations, both expected and unexpected. They are engaged in increasingly complex and spontaneous oral interactions, perform meaningful tasks, and use their research skills to acquire relevant information. Though communication continues to be essential, students are further exposed to both contemporary and traditional works in French in order to enhance their cultural awareness.

SPANISH ENTRY 9 (MSP--09)

Open to Grade 9 students.

This is an introductory course designed to provide students with a foundation of the Spanish language. Emphasis will be on practicing the most commonly used vocabulary and sentence structures through music, storytelling, reading, art and theatre. Students will also explore the similarities and differences between their own language and culture with those of Spanish speaking communities around the world.

SPANISH 10 (MSP--10)

Recommended: Spanish 9

As a continuation of Spanish 9, students will review, and expand on a range of commonly used vocabulary and sentence structures. Emphasis will be on learning the past, present, and future time frames through music, storytelling, reading, art and theatre. Students will also explore the many contributions Spain and Latin American countries have made to society.

SPANISH INTRODUCTORY 11 (MBSP-11)

Open to Grade 10, 11, and 12 students.

This is a condensed and fast-paced course that covers the Spanish 9 and 10 curricula in one year. Emphasis will be on practicing the most commonly used vocabulary and sentence structures through music, storytelling, reading, art and theatre. Students will also explore the similarities and differences between their own language and culture with those of Spanish speaking communities around the world.

SPANISH 11 (MSP--11)

Recommended: Beginners Spanish 11 or Spanish 10.

As a continuation of Spanish 10 or Introductory Spanish 11, students will learn a range of complex vocabulary and sentence structures through authentic works in Spanish. Emphasis will be on increasing awareness about the many cultural and linguistic influences found in Spain and Latin American countries. Students will use the language in fun and meaningful ways through independent and collaborative projects.

SPANISH 12 (MSP--12): Recommended: Spanish 11

Students will learn a wider range of increasingly complex vocabulary and sentence structures through variety authentic texts in Spanish. Emphasis will be on engaging in meaningful dialogue about language, culture, geography, history, and current events.

Students will learn how to access Spanish resources online and engage in independent and collaborative projects to exchange ideas and information.

BEGINNER JAPANESE 11 (MBJA-11)

Open to Grade 9, 10, 11, and 12 students

Students develop a range of oral and written Japanese language-learning skills which assist them in comprehension, expression, and task accomplishment encountered in everyday life. Students will use both *hiragana* and *katakana* to acquire information from authentic documents. The "plain form" is also introduced and through this students are able to understand how language works and how culture determines the different ranks of Japanese society.

JAPANESE 11 (MJA--11)

Recommended: Beginner Japanese 11 or equivalent

Students have frequent opportunities to describe and participate in events they encounter in their daily life (such as describing their families, ordering food at a restaurant, etc.) *Kanji* is introduced. They continue to use culturally appropriate expressions as required in Japanese.

JAPANESE 12 (MJA--12)

Prerequisite: Japanese 11

Students are encouraged to take more risks in creating "on the spot" extemporaneous dialogues and interactions based on common situations found in Japan. Acquired sentence patterns and grammar, along with *Kanji*, play a bigger role in paragraph writing. A wide range of resources is used for students to acquire the information they need for both oral and written activities.

PHYSICAL AND HEALTH EDUCATION

PHE 8, 9, 10 (MPHE-08, MPHE-09, MPHED10) Recommended: Completion of the previous course before advancing.

Each of these courses begin with the premise that a lifelong commitment to physical activity has many benefits and is an essential part of a healthy lifestyle. Students will participate in a variety of team and individual activities, dance, and fitness. Topics such as healthy eating, and goal setting for healthy living will also be covered. There will be emphasis on personal and social responsibility as well as opportunities to develop leadership skills.

PHE10 Leadership (MPHED10ENR)

Recommended: Successful completion of PHE9.

PHE 10 Leadership *aims* to enable students to enhance their quality of life through healthy living and physical activity while providing opportunities to further develop students' leadership skills and knowledge. Students will have various opportunities to apply strategies of leadership in a variety of settings that range from school intramurals, to event planning and community-based initiatives. Students will discover the benefits of volunteering and giving back to their school and community as well as gain an appreciative respect for the leaders who played a significant role in physical and health education.

Field trips will be part of the course to enhance student learning. This may include (but not excluded to): Rock Climbing, UBC Ropes Course, Kickboxing, Yoga, Dance, Dragon Boating, Skating. Field trips will be dependent on the health and safety circumstances. A requirement of 10 hours of service/term is required.

Please note there will be a course fee to cover field study opportunities. Field trips will be dependent on the health and safety circumstances.

PHE 11/12 Active Living Leadership (MACLV11SC1, MACLV12SC1)

Recommended: Successful completion of MPHED10 or MPHED10ENR

This course is designed to help students further develop their leadership knowledge, skills and sensitivities. Students will explore the components necessary to become leaders and participate in individual and group activities where they can practice and hone their leadership skills. Students will recognize their personal leadership styles, explore leadership issues unique to youth and articulate a personal philosophy of leadership. They will also demonstrate effective communication skills, understand and practice team building strategies and motivate others to contribute to the success of their projects.

Field trips will be dependent on the health and safety circumstances.

Course Fee: Pay as you go.

PHE - Active Living 11/12 (MACLV11, MACLV12)

Recommended: Completion of PHE10.

This co-ed course offers students an opportunity to enhance individual and group skills through a variety of individual and team games. It promotes healthy attitudes and improvement of personal fitness levels through regular physical activity.

Girls PHE - Active Living 11/12 (MACLV11G, MACLV12G)

Recommended: Successful completion of PE 10.

This is a non co-ed course providing opportunities for girls to develop their knowledge, skills and confidence to be life-long learners of physical activity. There will be a mix of individual and team games, as well as fun

fitness activities. Field trips will be dependent on the health and safety circumstances. Course Fee: Pay as you go.

Fitness and Conditioning 11/12 (MFTCD11, MFTCD12)

Recommended: Successful completion of PE 10.

Students should have the desire and motivation to improve both their cardiovascular and muscular fitness and to improve their knowledge of fitness-related topics.

Strength and Conditioning is a practical movement course. This course educates, trains and assesses students on functional human movements and proper weightlifting techniques. Students will utilize strength training equipment to improve overall health and wellness throughout the year. Students will also learn the principles of exercise, sport nutrition, sport psychology, human anatomy, biomechanics of resistance exercises, weight training periodization & personalized program design. This course will be beneficial to both athletes and those interested in general fitness training for improved health and athleticism. Additional skills learned may include sport psychology, motivational techniques, preparing and executing practice plans, and sports first aid.

Field trips will be dependent on the health and safety circumstances. Cost: Pay as you go.

YOGA FOR LIFE 12 (YLRA-2A)

In this course students will explore different styles of yoga: hatha, yin, restorative and power. The meditative quality of yoga and self-awareness helps students manage all the pressures and stresses in their lives. Also, yoga is the only exercise that simultaneously strengthens and stretches the body. This is a great way to maintain a healthy body and a healthy mind. Students will be required to keep a journal. This can be used as the daily physical activity graduation requirement. A yoga mat is recommended.

SCIENCE 8 (MSC--08)

- Using an experimental approach, Science 8 investigates the four fundamental disciplines of Biology, Chemistry, Earth Science and Physics.
 - Topics include:
 - Life processes are performed at the cellular level.
 - The behavior of matter can be explained by the kinetic molecular theory and atomic theory
 - Energy can be transferred as both a particle and a wave.
 - The theory of plate tectonics is the unifying theory that explains Earth's geological processes.

SCIENCE 9 (MSC--09)

Recommended: Science 8

Using an experimental approach, Science 9 investigates the four fundamental disciplines of Biology, Chemistry, Earth Science and Physics.

Topics include:

Cells are derived from cells

- The electron arrangement of atoms impacts their chemical nature
- Electric current is the flow of electric charge
- The biosphere, geosphere, hydrosphere, and atmosphere are interconnected, as matter cycles and energy flows through them.

SCIENCE 10 (MSC--10) Recommended: Science 9

Using an experimental approach, Science 10 investigates the four fundamental disciplines of Biology, Chemistry, Earth Science and Physics.

Topics include:

- Genes are the foundation for the diversity of living things.
- Chemical processes require energy change as atoms are rearranged.
- Energy is conserved and its transformation can affect living things and the environment.

EARTH SCIENCE 11 (MESC-11)

Recommended: Science 10

Earth Science 11 offers students a relevant and practical science that has important applications in the real world. Through the investigation of geological processes students become aware of their role in our unique and fragile environment. Students also develop an appreciation of the impact of human activities on both local and global environments.

LIFE SCIENCES 11 (formerly BIO11 MLFSC--11)

Recommended: Science 10

The objectives of Life Sciences 11 are to provide students with an introductory survey of Earth's organisms, their unifying and identifying characteristics, the interrelationships that exist between them and the genetic basis for their evolution. Furthermore, special attention will be given to the local organisms, places and living systems of British Columbia and the Metro Vancouver region.

The course includes a variety of place-based experiences and may include a day trip to a local biodiversity museum and an *optional* multi-day trip to the Bamfield Marine Sciences Centre.

ANATOMY AND PHYSIOLOGY 12 (MATPH--12 formerly BIO12)

Recommended: Students taking this course should have a comprehensive understanding of the concepts covered in Chemistry 11 and Biology 11.

The objectives of Anatomy and Physiology 12 are to provide students with an understanding of the structure and function of a cell, the physical and chemical interactions that are inherent to cell survival, the expression of

genes and traits as a result of information held within a cell, and the diverse structures and systems of the human body.

This course includes several hands-on learning experiences including specimen dissections (or simulations), experimental design inquiries, and hands-on physiology labs.

CHEMISTRY 11 (MCH--11)

Recommended: Science 10

Recommendation: Students should take Mathematics 11 concurrently as this course involves many and varied calculations.

This is an introductory course in chemistry involving the study of matter using laboratory exercises and chemical calculations. **Topics** include laboratory safety procedures, significant figures, mole concepts, stoichiometric calculation, nomenclature, atomic theory, the periodic table, chemical bonding, solutions and organic chemistry.

This course may include an *optional* multi-day trip to the Bamfield Marine Sciences Centre.

CHEMISTRY 12 (MCH--12) Recommended: Chemistry 11

Recommendation: Success in this very demanding course requires good understanding of the concepts in Chemistry 11.

This course deals with advanced topics in chemistry including solutions and solubility, rates of chemical reactions, chemical equilibrium, solubility equilibrium, acid-base chemistry and oxidation-reduction reactions.

PHYSICS 11 (MPH--11)

Recommended: Science 10 and because students will be carrying out complex mathematical calculations, Mathematics 11 should be taken previously or concurrently.

Physics 11 deals with the nature of matter and energy in terms of facts, laws, concepts, principles and theory. The specific topics include wave motion applied to light or sound, acceleration, frictional forces, mechanical and heat energy, optics, nuclear physics and special relativity.

PHYSICS 12 (MPH--12)

Recommended: Physics 11 – A C+ or better in Physics 11 and Mathematics 11 is recommended for success in this course.

This is an in-depth course carrying out precise measurements of major principles of physics. This course is designed to foster the understanding of physics as an integral part of society's culture and provide the groundwork for further academic or career training.

ENVIRONMENTAL SCIENCE 12 (MEVSC11)

Recommended: Environmental Science 11

This course will consider the human relationships to our living planet, including how our actions affect water and climate systems. Moreover, it will investigate sustainable land management practices and explore socioscientific issues such as human population growth and environmental law. Special attention will be given to local places and systems of British Columbia and the Lower Mainland region.

This course includes a variety of place-based experiences and leadership opportunities and may include several day trips.

SOCIAL STUDIES

SOCIAL STUDIES 8 (MSS--08)

- Within this scope, students will study at least one indigenous population and will have opportunities to explore and better understand some of the following concepts:
- Social political and economic structures (the end of feudalism, reformations, counter reformations, religious structures, labour movements, changing gender roles)
- The impact of scientific and technological innovations (in agriculture, navigation, cartography, mathematics, printing, on religious ideas)
- Shifts in philosophical and cultural ideas (Enlightenment, Renaissance, developments in art and architecture)
- The impact of exploration, expansion and colonization on established civilizations (state formation to collapse)
- Population trends and resulting impacts on living standards (forced/voluntary migrations, impacts on environment)

 Interactions between ideas, arts, cultures and resources among different civilizations (Mesoamerica, crusades, the Silk Road, Indian Ocean trade, imperialism, Renaissance)

SOCIAL STUDIES 9 (MSS--09)

Recommended: Social Studies 8

We are happy to offer a brand-new curriculum and all the surprises it holds. Generally, the time period covered in this course is from 1750 - 1919. Yes! That is a huge span of time to cover, but don't panic. With the flexibility now offered, teachers are able to choose from a variety of topics such as: the French Revolution; American Revolution; the Red River Resistance; the impact of treaties on First Peoples; the impact of the Indian Act; slavery; immigration to North America; Canadian Confederation; National Policies; Responsible Government; the Opium Wars; the Fraser Canyon War; Crimean War; societal attitudes towards ethnic minorities in Canada and the racist policies that developed; physical regions in Canada; and the connection between resources and the economy in Canada.

SOCIAL STUDIES 10 (MSS--10)

Recommended: Social Studies 9

Socials 10 looks at Canada and the world, beginning in the 20th century. Special emphasis is given to the economic, social, geographical, and ideological factors that created Canadian institutions, and that forged a sense of Canadian identity. Students will challenge the narrative of Canada and its identity as inclusive and multicultural by examining various historical injustices in Canada and the world which led to the establishment of processes to address those injustices – truth reconciliation commissions, repealing/revising historically unjust, or inherently prejudiced laws, for example. Sustainability and economic growth are components of this course, as is examining the interaction between humans and their environment, nationally and internationally.

SOCIAL STUDIES SENIOR ELECTIVES

Students must complete one social studies elective for graduation. Students in either grade 11 or 12 may enroll in the following courses:

PHYSICAL GEOGRAPHY 12 (MPGEO-12)

Geography 12 is a course that is considered both a liberal art and a science. Students investigate the processes that create our world and the impact those processes have on humans. It develops an awareness of present world environmental issues such as wild species depletion, oil spills, and global warming; resource management, such as mining, forestry practices and water usage; and our economic dependence upon the natural Students practice assessing the world. compatibility of human activities and the compatibility of human activities and nature's ability to sustain human demands, with the hope of developing solutions for the future. Students also gain a solid base in the physical elements of geography and the techniques of studying these features.

20th CENTURY WORLD HISTORY 12 (MWH--12)

The 20th century was a century of unprecedented change and conflict. The emergence of competing political ideologies led to extensive international conflict, but also strong technological development, the growth of human rights, living standards and democracy. Developments in Europe and the US are the primary focus, but the course will also view Asia, the Middle East and emerging nations. Film and video resources will be used extensively.

COMPARATIVE CULTURES 12 (MCMCL12)

Comparative Cultures 12 explores various human civilizations through a study of the many mediums of culture: art, architecture, sculpture, philosophy and music. Students help decide which civilizations will be studied. A special emphasis is the appreciation of culture through the study of art, and the diversity of world views inherent in artistic and cultural contributions. The course serves as a basic introduction to several liberal arts disciplines: archaeology, anthropology, sociology and art history.

LAW STUDIES 12 (MLST-12)

This course offers an understanding of Canadian law. Guest speakers including lawyers, judges and police officers speak on their areas of expertise. Field trips may include the Provincial and B.C. Supreme Court, a law firm and the police museum. Areas of study may include Criminal, Family, Civil, Environmental and Contract Law.

Major topics include:

- History of law and development of our legal system
- Rights, responsibilities and obligations
- Court system and dispute resolution
- Criminal Law and the civil legal process

SOCIAL JUSTICE 12 (MSJ--12)

This is a senior Social Studies course designed to address the issues surrounding the causes and consequences of discrimination, unfair labour practices, and social inequity. The purpose is to increase awareness of our rights as citizens and our responsibilities as people. "If we could change ourselves, the tendencies in the world would also change. As a man changes his own nature, so does the attitude of the world change towards him. We need not wait to see what others do." Mahatma Gandhi

AP EUROPEAN HISTORY 12 (AHI--12)

This study of European history since 1450 introduces students to the cultural, economic, political and social developments that played a fundamental role in shaping our world. Some highlights include the Renaissance, Enlightenment and Absolutism, European exploration and colonization, the Industrial Revolution, and the major changes of the twentieth century.

This course will be taught as a first year university course, and students can earn university credit by writing the external exam. Alternatively, students may take the course as a Grade 12 History course, which counts toward university admission.

SKILLS DEVELOPMENT CENTRE

SDC services are multidimensional. Students experiencing significant difficulty in one or more basic academic skills required for successful independent learning and achievement receive direct intervention (alternating days) in the SDC. Individual Educational Plans are established documenting accommodations or modifications for curriculum.

Prerequisite: Candidates for referral to the SDC experience academic difficulty in one or more academic area(s). Students experiencing challenges due to environmental, behavioral or absenteeism problems receive school support other than from the SDC. Formal and informal testing is used to assess students prior to psychometric and speech/language testing and to identify areas of concern.

Expectations and Evaluation: IEPs are developed to meet students' learning needs and to establish a framework for a positive learning experience where expectations for success are high. Students are expected to work to capacity and the best of their ability. Assigned work must be responsibly completed for each course.

At each reporting period, anecdotal reports (not letter grades) are provided for students enrolled in the SDC, and include information on interventions used, evaluation of progress, work habits, attendance, recommendations for further or alternative interventions and areas of concern. Interim report cards are sent if deemed necessary.

PEER TUTORING 12 (YIPS-2B)

Peer Tutoring is offered to Grade 12 students who are trained by the Skills Development Centre teachers. Peer tutors act as positive role models and assist the learning of other students. In the SDC, peer helpers become the

learning assistants for students who are experiencing challenges in academic courses. Peer Tutoring 12 is a 4 credit course which counts towards Honour Roll standing.

Peer helpers are intensely schooled in the application of sound learning strategies and study skills to apply to regular, academic course work. Time is spent on motivation and encouragement, study skills, organization of daily school work, preparation and editing of written assignments and word processing.

Prerequisites and Evaluation: If you are willing and helpful, please apply. Good attendance, a willingness to contribute in a variety of ways and the maintenance of a daily journal will enable the student to succeed in this course.

COMMUNITY SERVICE

COMMUNITY SERVICE 11 (YCPM-1D)

Open to students in Grades 11 and 12.

Community Service 11 is a full year course designed to involve students in a variety of service activities such as assisting the office staff, working in the library, and assisting special needs students and their teachers.

Acceptance into the course is arranged through an administrator and a sponsoring staff member. **Space in this course is limited.**

Community Service students are expected to:

- attend regularly and be punctual,
- complete all tasks, assignments or projects.
- demonstrate responsibility and the ability to fully understand instructions and carry out tasks with a minimum of supervision,
- show a responsible attitude, and
- show initiative and resourcefulness in their approach to the work assigned.

LIBRARY SERVICES

LIBRARY SERVICES 11 (YBMO-1B) Library Club and/or Library CS encouraged, or permission from Librarian.

Students provide service to staff and students in the School Library Learning Commons. They acquire knowledge, skills, and attitudes that prepare them for work environment, book trade, University and community libraries. Students develop the ability to work independently and be self-directed. Completion of Community Service 11 in the library, or membership in the Library Club encouraged. If not, students must speak to the Teacher-librarian prior to registering to ensure success in this course.

SPARTS students earn course credits through a combination of studying on-and-off timetable courses at Magee, and through correspondence and on-line learning. Most students complete four or five courses each year, and receive additional credit through their sport or art activity in the areas of PHE and/or Fine Arts as follows:

Dance / Gymnastics / Figure Skating:

Credit for P.E. and Fine Arts at grade level Sports:

Credit for P.E. at grade level

Music:

Credit for Fine Arts at grade level

Students may also be eligible to receive credit for some provincial and externally credited courses depending upon their particular SPARTS activity. Please consult your grade counsellor or the SPARTS coordinator for more information.

SPARTS students are expected to maintain a B average, maintain their training schedules and provided ongoing communication to their teachers and counsellor regarding absences and any changes to their SPARTS program.

MAGEE LEADERS

The Magee Leaders Program is composed of 28 students and 4 Magee teachers who work together at the grade 8 and 9 levels. The program is made up of 4 courses that students in the program take together as a cohort on the same day. The Leaders Courses from 2018-19 included:

- Magee Leaders English 8 & 9 (MEN--8SC1, MEN--9SC1)
- Magee Leaders Social Studies 8 & 9 (MSS-- 8SC1, MSS--9SC1)
- Magee Leaders Drama 8 & 9 (MDR--08SC1, MDR--09SC1)
- Magee Leaders Science 8 & 9 (MSC--08SC1-001, MSC--09SC1-001)

The program provides students with an enriched, integrated curriculum in these courses. The program is designed to develop leadership skills through accelerated academic achievement and community Emphasis is placed on thematic units and enriched activities which emphasize creativity, social responsibility, physical challenges and artistic and cultural awareness. Students work cooperatively in creative problem solving, team building and developing leadership skills. Regular field trips and out of class learning are integral parts of the program. Students interested must have at least a B average, be highly motivated, love to be challenged, are community minded, are team players and are interested in developing leadership skills.

VSB ADULT EDUCATION

The Vancouver Board of Education operates three Adult Education (AE) centres throughout Vancouver; centres may provide outreach programs at offsite locations and offer youth programs. AE centres provide students with a wide array of flexible and student-centered learning opportunities that range from the basic literacy level (Ministry Foundations courses, Levels 1-7) to high school completion.

The Foundations courses help students develop or strengthen specific core skills needed for Grade 10/11/12 courses and obtain a high school diploma. All courses, both Foundations and Grade 10/11/12, follow prescribed Ministry curriculum.

To meet student needs for flexible programming, centres offer courses from early morning to evening, including Saturdays and operate year round with a variety of schedules:

- Semester (2 terms per year; beginning Sept. and Feb.)
- Quarter system (9 week terms; beginning Sept., Nov., Feb., Apr.)
- Summer term (6 week term)

Depending on student needs, each Centre provides a variety of course formats which may include:

- Self-paced courses (blended paper-based instruction with face-to-face assistance) from Foundations to Grade 10-12 courses
- Structured courses at the Foundations and Grade 10/11/12 levels

Students at our centres reflect the diversity of language and cultural backgrounds in Vancouver and range in age from 16 to seniors. Each of the Centres responds to the specific

needs of its community and program offerings reflect student course requests and enrollment patterns. Please note that students attending adult centres must be 16 years old (on July 1 of the current school year) and follow MOE course concurrency rules to be eligible for Ministry funding.

YOUTH TRAIN IN TRADES

The Vancouver School Board offers district programs for students to pursue industry certification or the foundation level of a trade program. These programs save time and money (free tuition) and offer a huge jump start for students.

The benefits include:

- Dual credit with post-secondary institution (most programs)
- Head start with Foundation program training
- Registration with the Industry Training Authority (ITA)
- Potential direct lead into an apprenticeship
- Work experience in the trade

For more information and an application form, please visit the VSB Career Programs website careerprograms.vsb.bc.ca

links to Youth TRAIN in Trades, a pdf brochure for each program, and the application package. Also visit the Industry Training Authority website: www.itabc.ca. All students applying for Youth TRAIN in Trades programs should register at Magee with a full course load, and any students interested in the TRAIN program will receive a modified a student's timetable if accepted into a Youth TRAIN program.
