

Matthew Halton High School

645 Davidson Ave., Pincher Creek, AB T0K 1W0

Matthew Halton High School (MHHS) is located approximately 100KM west of Lethbridge and is nestled near the Livingstone Range. The Livingstone Range is a part of the Canadian Rockies located in southwestern Alberta, Canada. Residents of Pincher Creek have ready access to a wide range of outdoor activities such as skiing (downhill and cross country), hiking, fishing, camping, boating, and hunting to name a few. The population of the town of Pincher Creek is approximately 3600 but it also serves a wide geographic range. MHHS is a Grade 7 – 12 school with 280 students. Our school has an innovative, committed, and supportive staff. We offer a wide range of programming and emphasize experiential, practical, and authentic learning. It is our belief that student success can be measured by academic achievement assessments along with intentional teaching and learning of core proficiencies including critical thinking, problem solving, decision making, collaboration and leadership, managing information, digital and technological literacy, creativity and innovation, social, cultural, global, and environmental responsibility, communication, lifelong learning, personal management, and well-being.

Students at MHHS have a high level of choice in a wide variety of career and technology studies courses. During two separate weeks in the school year our regularly scheduled timetable is suspended while students are immersed within practical and hands-on learning where the core proficiencies are emphasized. These highly engaging classes support personal learning endeavors that extend beyond traditional school boundaries and, at times, bring students into the community and surrounding area to explore, learn, create, and innovate. We have a strong and collaborative relationship with our community and we are fortunate to be able to tap into a deep pool of expertise to help support our students in their learning.
